### **DETAILED ACTION**

The following is an examiner's statement of reasons for allowance:

Claims 1-3, 5-7, 11-17 are allowable over the prior art of record because the prior art of record fails to teach or fairly suggest that updating the personal word map of the user's personal profile with the pair of keywords used in the search phrase that returned the selected object, wherein said personal word map is comprised of separate line entries for each different keyword used in a search phrase followed by its associated keyword, and each keyword in the personal word map is tracked with a weight value for the number of times that keyword has been used in search phrases that returned objects selected by the user, and selecting one or more pair of different keywords from the associated keywords as Boolean operators in order to generate a subsequent set of search phrases using the associated keywords, as argued by the applicants in the response received on Aug 16, 2004, page 2.

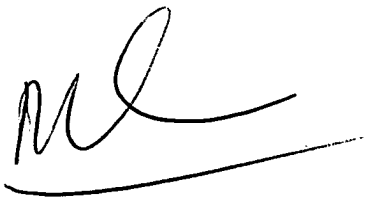

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
